Responsible Events

Everyone at Merlin Entertainments cares deeply about what they do.

We care about our guests and their safety, about the animals in our care and their habitats around the world, about the places in which we operate, and about each other. We aim to be a force for good wherever we operate, going above and beyond what is expected of us as a good corporate citizen.

In 2024 we have introduced our conservation events package. This will include a drinks package made in collaboration with Mountain Culture Co using sustainable materials. For each drink consumed \$1 will be donated towards the SEALIFE Trust foundation. An aquarist will provide an informative talk on conservation projects and sustainability practices being supported by Merlin Entertainments. Companies will also be gifted a certificate acknowledging their contribution and support to sustainable events and conservation.
